

# Highfield **Level 2** End-Point Assessment for **ST0037 Aviation Ground Operative v1.0**

Government funding band – £3,000

Gateway requirements – level 1 English and maths (optional for 19+, please see funding rules)

End-point assessment method – On-demand test, practical observation and professional discussion

## Working as a Aviation Ground Operative

An aviation ground operative could work in a number of environments, such as a commercial airport, military base/aerodrome, heliport or other airfield. Aviation ground operators form the teams above and below the wing to ensure the efficient and effective arrival, turnaround and departure of aircraft. At the heart of the role is safety, security and compliance with aviation regulations that focus on each operator's day-to-day duties. Effective communication and teamwork ensure that aircraft handling, air traffic control (ATC) and those moving, loading, unloading and servicing a range of aircraft achieve the objectives of their organisation in this diverse field. The core knowledge, skills and behaviours must be completed by all ground operatives, along with 1 of the 5 specialist functions.

## Your apprentice's journey

### **Ready** for training

- Initial assessment
- English and maths training (optional for 19+, please see funding rules)
- On-programme training to meet the requirements of the standard
- Gateway readiness self-assessment

### **Set** for assessment on completion of training and functional skills

#### **End-point assessment methods are;**

##### **On-demand test**

- 2, 60-minute on-demand multiple-choice tests, with scenario-based questions. The first test will be on the core and apply to all apprentices, the second will be specific to their specialist function

##### **Observation**

- 1-hour observation, selected from the list of 3 specialist function-specific possible scenarios, of the apprentice in their workplace

##### **Professional discussion**

- structured discussion focusing on how the apprentice has performed during the apprenticeship and their overall achievement of the standard. The apprentice may identify supporting evidence to bring to the professional discussion to illustrate performance

### **Go** further

Progression from this apprenticeship is expected to be into a ground operator's role with the potential to develop into an aviation operations specialist role.

## Available support

#### **On-programme support**

- Delivery resources
- Tutor support resource
- Innovative and multi-device e-learning courses

#### **End-point assessment support**

- Gateway and mock assessments
- Bespoke end-point assessment solutions
- Progression tracking system
- Staff training, standardisation and support
