

Highfield **Level 3** End-Point Assessment for ST0550 **Safety, Health and Environment (SHE)** Technician v1.1

Government funding band – £5,000

Gateway requirements – Achieved level 1 equivalent ICT, level 2 English and level 2 maths (optional for 19+, please see funding rules), portfolio of evidence.

End-point assessment method – Knowledge exam, work project and associated presentation, professional discussion.

An overview of the standard

A SHE technician will be able to work in organisations of varying sizes and in various industries. The technician will work with the management and delivery team of the organisation to advise on the statutory health, safety and environmental requirements as they affect the company's operations. They will assist the management team in ensuring that the legal and company SHE requirements are implemented. On a daily basis the SHE technician will assist to develop, review and check on the implementation of safe systems of work, deliver training (e.g. toolbox talks and inductions), investigate incidents, analyse data and present findings to the management team. The SHE technician will engage with all aspects of the organisation to support the implementation of a culture that ensures everyone is able to return to their family and friends unharmed every day while also protecting and enhancing land, air and water resources for future generations.

Your apprentice's journey

Ready for training

- Initial assessment
- English, maths (optional for 19+, please see funding rules) and ICT training
- On-programme training to meet the requirements of the standard
- Gateway readiness self-assessment

Set for assessment on completion of training and functional skills

Knowledge exam

11 two-part questions (multiple-choice questions and open-response questions) with a 2-hour duration.

Professional discussion

The professional discussion will last 60 minutes +/- 10%, and the discussion will be audio recorded for quality assurance purposes.

Work project and associated presentation

- The work project report will be 2,000 words (+/-10%)
- The apprentice will present evidence from their real work
- Presentations should be 20 minutes +/- 10%, followed by questions and answers for 15 minutes +/- 10%

Go further

The Institution of Occupational Safety and Health (IOSH) will recognise the SHE apprenticeship, enabling those who have completed the apprenticeship to join IOSH at TechIOSH level.
