## Working as a learning mentor

Learning mentors support learners of all ages and levels to develop within a new work role. These learners may be, for example, apprentices, trainees or new recruits (ranging from young entrants to new CEOs) in the workplace, or in any vocational learning environment. They support the development of learners' knowledge, skills and behaviours, throughout their programme, particularly in applying theoretical learning in practical work environments (and usually on a one-to-one or small group basis), and give practical, technical and/or pastoral support and guidance.

## The programme's structure

Apprentices will be placed in a role for 12 months during which they will be supported while on-programme by their tutor. Their tutor will review the progress of the apprentice against the standard to ensure they are prepared for the end-point assessment.
