## Perfect finish with MIRKA® Polarshine

### **Polarshine® 45 Polishing Compound**

A coarse, fast cutting polishing compound that helps you save time while achieving a perfect, deep, glossy finish. Removes sanding scratches and finer swirl marks quickly and permanently. Designed for hard surfaces and coatings, especially within the marine sector, as well as automotive ultra high solid coatings. Comes in both 1L and 250ml.

### **Polarshine® 12 Polishing Compound**

Polarshine® 12 is a water-based, silicone free, one step polishing compound. Removes P2000 scratches or finer (depending on the surface and polishing pad) and has a perfect balance of haze and hologram versus speed of cut. Comes in Black polish for dark colours and White for lighter colours. Both colour polishes come in 1L and 250ml.
