

PPG Filtration Technologies

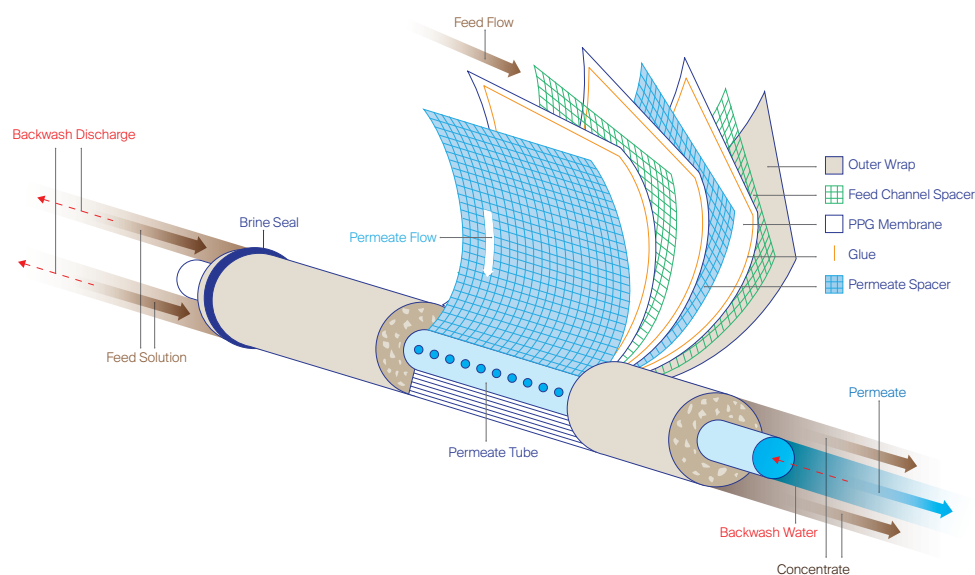

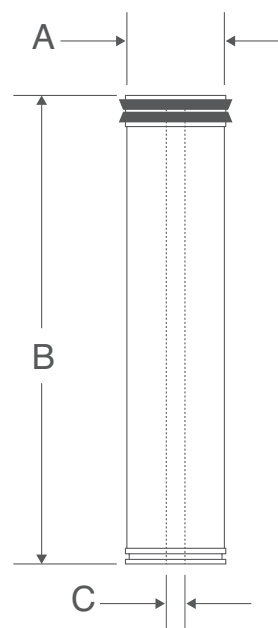

Product Data Sheet: PPG ULC7640-DA1P-FDM13FF

Description

Spiral wound membrane
FRP outer wrap
Two brine seals on top
Single Anti-Telescoping Device (ADT) on one end, double on the other end

Dimensions

Diameter (A)	7.48" (190 mm)
Overall Body Length (B)	40.0" (1016 mm)
Permeate Tube ID (C)	1.285" (32.6 mm)
Membrane Area	320 ft ² (29.7 m ²)
Weight	40 lb (18.2 kg)

The specifications for this product are the dimensions and element properties identified on this Product Data Sheet. The operating parameters on this Product Data Sheet are based upon information believed by PPG to be currently accurate; however, PPG makes no representations or warranties regarding the accuracy of the operating parameters or any other information on this Product Data Sheet. PPG also makes no representations or warranties regarding the performance or results of this product, or regarding freedom from patent infringement in the use of any formulae or process on this Product Data Sheet. Improvements in filtration technology may cause operating parameters to vary from what is on this Product Data Sheet.
