IN NO EVENT WILL PPG BE LIABLE UNDER ANY THEORY OF RECOVERY (WHETHER BASED ON NEGLIGENCE OF ANY KIND, STRICT LIABILITY OR TORT) FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES IN ANY WAY RELATED TO, ARISING FROM, OR RESULTING FROM ANY USE MADE OF THE PRODUCT. The information in this sheet is intended for guidance only and is based upon laboratory tests that PPG believes to be reliable. PPG may modify the information contained herein at any time as a result of practical experience and continuous product development. All recommendations or suggestions relating to the use of the PPG product, whether in technical documentation, or in response to a specific inquiry, or otherwise, are based on data, which to the best of PPG's knowledge, is reliable. The product and related information is designed for users having the requisite knowledge and industrial skills in the industry and it is the end user's responsibility to determine the suitability of the product for its own particular use and it shall be deemed that Buyer has done so, at its sole discretion and risk. PPG has no control over either the quality or condition of the substrate, or the many factors affecting the use and application of the product. Therefore, PPG does not accept any liability arising from any loss, injury or damage resulting from such use or the contents of this information (unless there are written agreements stating otherwise). Variations in the application environment, changes in procedures of use, or extrapolation of data may cause unsatisfactory results. This sheet supersedes all previous versions and it is the Buyer's responsibility to ensure that this information is current prior to using the product. The English text of this sheet shall prevail over any translation thereof.

AERO SERVICES

PPG offers a turnkey outsourcing program for chemical and fluid management, process management, and logistics - custom designed to include sourcing, purchasing, and vendor management.

Key Benefits to working with PPG

Financial Strength & Security

PPG is a Fortune 500 company

Global Infrastructure

PPG operates in 70 countries

Chemical Knowledge

PPG is a global manufacturer

Chemical Data Reporting

PPG's Hazardous Material Management (HMM) system used for environmental compliance

Right-Size Packaging

PPG offers in-house repackaging capabilities to provide ideal quantity for application

Shelf Life Inventory Management

PPG has vast experience in managing shelf life sensitive products

Point of Use Inventory Management

POU is system managed, auto replenished and provides serialized container management

In-house IT Solutions

Optimizing inventory with RFID technology, Efficient, Accurate, and Live

Certifications

AS9120 / EN9120
AS9100 / EN9100

1
Material Planning
Chemical Catalogue Management
Forecasting, Inventory Management
Product Obsolescence Support
Product Stewardship Management
Minimize Work Stoppage

2
Purchasing
Sourcing, Order Management
Supplier & Contract Management
Consolidated Account Payables

3
Receiving & Logistics
Export Compliance Management
Incoming Inspection (DSQR)
PPG local Warehouse Storage
Consolidated Deliveries to
Customer Sites

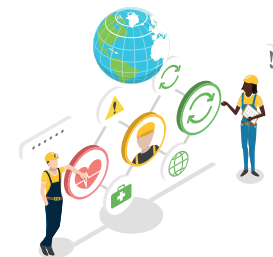

7
Reordering
Automated Option via RFID
Advanced Option via E-commerce

6
Point of Use Management
On-site PPG support
Movement of chemicals
5S

5
Environmental, Health & Safety
Regulatory Surveillance (REACH, TSCA and others)
Compliance with the Supply Chain Act
Responsible Sourcing
Import volume tracking by CAS substances
VOC data tracking

4
IT Solutions
In-House Developed Systems
Inventory Management Software
Serialized Container Management
RFID Scanning

+ Chemical Packaging Services

CHEMICAL PACKAGING SERVICES

PPG has decades of experience down-packaging specialty chemicals for aerospace, electronics, and general industrial applications from bulk formats to custom sizes. Common materials packaged in our COE's (Centers of Excellence Hamburg and Indianapolis) typically include adhesives, sealants, coatings, lubricants, and other critical assembly fluids. These materials play a crucial role in various industries and applications, ensuring the proper functioning and longevity of assembled products

Variety of end-uses

Packaging, repackaging and kitting of common chemicals used in industrial processes. Custom packaging options are available to suit a variety of end-uses.

Quality

Waste reduction

Reduce inventory costs

Why choose CPS ?

Helps eliminate excess chemical material, minimize packaging waste, optimizes the application process, and decreases the application time.

PPG's answer to "one source IT solution to manage chemicals"

HMM

Hazardous Material Management

Statistics

KPI Dashboards
Financial Reporting
Environmental Reporting
Supply Chain Reporting

SDS Management

On-line Access to SDS
SDS Maintenance
SDS Document Retention

Quality Document Management

Certificates of Analysis
Certificates of Conformity
Shipping documents
QC Traceability
