

PPG LABORATORY TEST RESULTS CERTIFICATION

ACCELERATED WEATHERING: W-O-M

PPG Industries, Inc. certifies the following performance properties for the Duranar® Coil Coating System when applied and baked on properly cleaned and pretreated substrates, according to PPG specifications:

COATING: DURANAR

TEST: ASTM D6695 and ASTM G155 – Standard Practice for Xenon-Arc Exposures of Paint and Related Coatings
ASTM D4214-Degree of Chalking of Exterior Paint Films, Method A-D659
ASTM D2244 -Calculation of Color Difference

SPECIFICATION: Coating should withstand a weathering test of 5000 hours in a Xenon-Arc Weather-O-Meter, run in accordance with the above test without cracking, peeling, blistering or loss of adhesion

RESULTS: No cracking, peeling, blistering or loss of coating adhesion. Color change is less than 5 delta E color units. Chalk will be no worse than a 8 rating.
