
Finding the Right Color/Color Lookup Process

PAINTMANAGER® XI color software

Starting with Paint Code

1. Locate OEM paint code
2. Look up formula in *PaintManager XI* software by entering OEM code, or brand code if known
3. Choose color formula desired
4. Choose DELFLEET ONE™ F1DG or F1BC* paint system.
5. If a color box location exists, it will appear under the prime or variant tiles for that paint system.
6. Go to color selector and find the identified chip.
7. Compare to repair area and ensure a match.
8. Follow DFOTB-203 for recommended application technique.

* The best match to the chip will be achieved with F1BC.

Starting with color selector chip

1. Pull color deck for the appropriate color family and find the best chip
2. Look up the formula on *PaintManager XI* software by color number on chip.
3. Choose color formula that matches the chip (prime, variant, etc.)
4. Choose *Delfleet One* F1DG or F1BC* paint system
5. Follow DFOTB-203 for recommended application technique

* The best match to the chip will be achieved with F1BC.

DFOTB-201

PAINTMANAGER® (*Legacy*) color software

Starting with Paint Code

1. Locate OEM paint code
2. Look up formula in *PaintManager* software by entering OEM code, or brand code if known
3. Choose the color formula desired
4. Choose DELFLEET ONE™ F1DG or F1BC* paint system.
5. When the paint system is highlighted, a color box location (if one exists) will appear at the bottom of the screen
6. Once at the formula screen, a color box location shows again in the upper left hand part of the screen.
7. Go to color selector and find the identified chip.
8. Compare to repair area to ensure a match.
9. Follow DFOTB-203 for recommended application technique.

* The best match to the chip will be achieved with F1BC.

Starting with color selector chip

1. Pull color deck for appropriate color family and find best chip
2. Look up formula on *PaintManager* software by color number on chip
3. Choose color formula that matches the chip (prime, variant, etc.)
4. Choose *Delfleet One* F1DG or F1BC* paint system (F1BC will give best match to chip)
5. Follow DFOTB-203 for recommended application technique

* The best match to the chip will be achieved with F1BC.
