

FEATURES & BENEFITS

Process

- Easy to apply
- No pre-treatment required

Health & Safety Compliant

- Chrome free product
- Environmentally compliant
- Hazardous waste cost reduction

Protection

- Performance equivalent to current chromated products
- High corrosion protection level

Aerospace Specifications

- Multiple OEM qualifications
- AMS 3095A qualifications

The First Chrome Free Wash Primer System Qualified in Aerospace

All recommendations, statements, and technical data contained herein are based on tests we believe to be reliable and correct, but accuracy and completeness of said tests are not guaranteed and are not to be construed as a warranty, either expressed or implied. User shall rely on his own information and tests to determine suitability of the product for the intended use and assumes all risks and liability resulting from his use of the product. Seller's and manufacturer's sole responsibility shall be to replace that portion of the product of this manufacturer which proves to be defective. Neither seller nor manufacturer shall be liable to the buyer or any third person for any injury, loss, or damage directly or indirectly resulting from use of, or inability to use, the product. Recommendations or statements other than those contained in a written agreement signed by an officer of the manufacturer shall not be binding upon the manufacturer or seller.

Chrome Free Wash Primer

PPG AEROSPACE

A Technology Driver within the Aerospace Industry

PPG AEROSPACE is a business unit of PPG Industries, Inc., a global leader in coatings development, manufacture, and supply.

- Established in 1883
- Over 46,000 employees
- Manufacturing in over 70 countries

Supplier of aerospace coatings since 1927.

PPG Aerospace is also a global leader in the supply of Aircraft Transparencies, Sealants, Surface Solutions, Packaging and Chemical Management.

PPG Aerospace Desoprime™ CF Chrome Free Wash Primer

PPG Aerospace Desoprime™ CF Chrome Free Wash Primer can be applied directly to metal substrates with no pretreatment

Process Efficiency

- Enhanced yield and product transfer as compared to conventional priming processes
- Reduced VOC to drive adherence to local and regional environmental initiatives
- Robust resistance of fingerprints

Reduced Costs

- Reduced material usage with no need for pretreatment
- Colored material avoids over-application, reducing material usage

Environment/Health & Safety Impact

- Supports environmental sustainability
- Reduces usage of Corrosive, Toxic, and Flammable materials

Application process

The highest performing "Green" product
