

Participants wanted (m/f/x): How would you feel if HIV could be cured?

What do you know about HIV research? What is the role of HIV in your life? Imagine that it would be possible to cure HIV: What would it mean for you?

Currently it is not possible to cure HIV: treatment suppresses HIV, but it remains in the body. Scientists do a lot of research into the cure for HIV. We don't know when a cure becomes available. The University Medical Center Utrecht wants to find out what it would mean for you if HIV could be cured. We need and appreciate your help very much!

Who are we looking for?

- ❖ Adult (18+) men, transmen, women and transwomen
- ❖ English or Dutch speaking
- ❖ Adults living with HIV
- ❖ Adults who do not have HIV but are affected by HIV:
 - ❖ Your partner has HIV
 - ❖ You have a higher chance of getting HIV because you're bi or gay
 - ❖ You're a sex worker or you pay for sex
 - ❖ You ever injected drugs
 - ❖ You're from an area where HIV is prevalent

What does participation mean?

- ❖ Filling in the survey takes 15 to 20 min
- ❖ You can win 1 out of 50 gift certificates (€10)
