WELCOME TO THE 2020 KINGFISHER CHILDREN’S CATALOGUE!

This year we are proud to publish a wonderful selection of new titles that truly reflect the breadth of contemporary children’s non-fiction – from gorgeous picture-book style illustrated titles that look at the world from a fresh perspective, through hands-on, activity-driven science books, to titles packed with real-world experiences that tap into the latest trends.

If you’ve ever wondered how many high jumps it would take to reach the Moon* – then help is at hand! Full of funny facts and easy-to-read, How Many Mice Make an Elephant introduces children to the tricky concepts of size and distance.

Kingfisher has sold over 3 million Basher books, and now Basher brings STEM – that’s Science, Technology, Engineering and Maths – to life in his unique way for young scientists, with Basher STEM Junior. The series explains how we meet STEM in our everyday lives and brings the great scientists of history to life.

Ultimate Gamer: Career Mode introduces kids to a host of careers in the gaming industry, from how to become a top game developer to making a living by live-streaming games on Twitch and YouTube, through finding out what it takes to be a pro-gamer competing in eSports tournaments around the world.

Fans of the world’s most popular computer game can get ahead of the pack with Everything You Need to Master Minecraft Earth, the essential guide to the Augmented Reality spin-off that will bring Minecraft into our world in 2020.

With Fatti Burke’s eye-catching illustrations, Wings is a wonderful journey of discovery, taking readers on a fact-packed flight over a fascinating subject. There’s easy-to-read information on wings of all kinds from first aeroplanes to fire-breathing dragons, including plenty of STEM material.

For kids who are keen to put their science know-how into action, our four new eco-themed Discover It Yourself titles are full of practical experiments for budding scientists to try at home, plus inspiring ideas on how to make our environment a cleaner, safer place.

Last and by no means least, we bring you Wow! Robots and Wow! Forests, the latest additions to a wonderfully bright and inviting series that pairs gorgeous, contemporary illustrations with incredible facts.

Thank you!
Russell McLean
Kingfisher Publisher

* Answer: 157,142,857 high jumps would reach the Moon.
TAKE YOUR GAMING SKILLS BEYOND THE SCREEN

Get levels ahead as a game developer, Twitch streamer or pro player as you choose your career in the gaming industry.

EVERYTHING YOU NEED TO MASTER MINECRAFT EARTH

Become a Minecraft Earth master builder with this essential guide to the ultimate augmented reality game.
JOIN A FAST-PACKED JOURNEY THROUGH THE STORY AND HISTORY OF EVERYTHING WITH WINGS

With fascinating and fun information about all kinds of wings, from aeroplanes’ and birds’ wings to Greek goddesses’ and mythical horses’ wings.

A fun introduction to tricky maths concepts of size and distance

Learn how high, how big and how far away things are as well the maths to work it out

How Many Mice Make an Elephant and Other Big Questions About Size and Distance
