INVENT A STORY  Grand Idea Generator Storyboard

The Inventor’s Handbook says that all great inventions start off as a grand idea. The trouble with grand ideas is that they are one in a gazillion. Which is why we need your help!

What we need, is to think outside the box. What we need is an idea that’s so spingly, so amazing!

Where – would you like your time machine to travel?

When – would you like to land? Forwards or backwards in time (or sideways for a surprise?)

How – are you going to survive when you get there?

Who – are you likely to travel with or meet once you’re there?
