Make Your Own Toilet Roll Monster

Why not make your very own monster using the cardboard from an empty toilet roll?

Step 1:

Cut out the body parts on the second sheet or draw your own. Don't forget to ask an adult for help when you're using scissors.

Step 2:

Stick the body parts on to your toilet roll. Or you can create small cuts in the cardboard, poke them through and use a bit of sticky tape to secure them on the inside.

Step 3:

You could use pipe cleaners or lollipop sticks to help your monster stand up.

Step 4:

Why not make a monster family mixing and matching all the different body parts?
