| Devon | | |
| Dorset | | |
| Gloucestershire | | |
| Somerset | | |
| Wiltshire | | |

County Junior Hockey factors (in order of importance)

West Strategy focus areas to develop (in order of importance)

What has worked well this season with the new league format?

- **Improved Organization and Planning:** Feedback highlights clear organization, timetables, and documentation of roles for host counties. Planning fixtures and providing dates, venues and timings at the start of the season were appreciated for their efficiency.
- **Competitive Matches and Diversity of Opponents:** Playing against a variety of counties, rather than the usual few, was well-received. Competitive matches were enjoyed and the diversity added excitement to the league format.
- **Venue Quality and Accessibility:** Centralized and rotated venues ensured sensible travel distances and maximized pitch time. Venues were of decent standard, contributing positively to the overall experience.

What would you change about the County Junior League?

- **Improved communication among Counties:** Feedback highlights poor communication among counties, including sporadic responses, last-minute confirmations and late cancellations causing administrative stress.
- **Venue distribution and hosting concerns:** Excessive travel requirements highlighted as a challenge. Concerns raised about the concentration of fixtures in specific locations with the desire for a more equitable distribution and share travel burdens.

What has been the feedback from players, coaches and parents?

- **Positive experiences:** Players and coaches appreciated the competitive matches, league format and the opportunity to play against different counties. Feedback highlighted enjoyment and gratitude for the organisation and shorter days.
- **Travel concerns:** Travel distances were noted as a challenge with local games were preferred. Suggestions included: to reduce travel for U14 games and provide food/drink facilities near venues for long journeys.
- **Event organisation:** The organisation at venues was praised, with matches being more structured and enjoyable. Coaches appreciated the reduced rest window between games and the overall competitive standard.
- **Umpires:** Concerns were raised about matches being umpired by two assessed umpires simultaneously. Suggestions included assessing one umpire per game and partnering them with an experienced umpire.

West Hockey value your opinion and would be interested in hearing if there is any further information that you could provide us with that may help with developing Hockey across the West.

- **Concerns about County Hockey:** Feedback highlights worries about the future of county hockey, including its diminished status and challenges in retaining players. Some counties appear less committed to supporting county hockey and the standard gap between TA and AC levels.
- **Participation and pathways:** Suggestions include developing participation through state school pathways and extending opportunities for younger players to participate in events like the National County Championships. The importance of maintaining engagement across all age groups is emphasised.
- **Resource needs:** Recommendations include increasing the number of coaches and helpers to support county teams and hockey development efforts. Resource allocation is seen as a key factor in improving hockey across the region.
- **Event feedback and expansion:** Positive feedback on the National County Championships in Nottingham, with interest in expanding participation to younger age groups. Concerns raised about limited involvement from counties in the West, with only two counties participating this year.

**WEST
HOCKEY**

2025/26 Proposal v01

Plans for the 2025/26 season

- **Schedule:** Continue with the same format.
- **Dates:** Confirm dates (including slip date) as early as possible - ideally by end June.
- **Venues & travel:** Include additional venues whilst minimising travel where possible.
- **Pitch booking:** To be invoiced centrally to West Hockey on a monthly basis.
- **Administration of fixtures and results:** Utilise GMS.
