Draft Proposal of 2026 27 League Structure

Feedback is generally good on current structure, this proposal is trying to address Club survey feedback and improving how our League operates

Considerations for design...

- Parity on the number of games played by each team, where possible
- Smaller Leagues to meet number of games requested
- Retain local regional leagues to address travel
- More depth of Divisions to improve competition within Leagues
- Minimise need for play offs

Implications of this...

- Relegations during transition
- Travel
- Impact on number of Dev teams, how these will work

- The draft subject to team changes during 25 26, EHL relegation
