

Vice-Chair report for AGM 8 July 2024

1 London Hockey Futures

This programme provides funds to community outreach projects that focus on youth and EDI issues. Funding is mainly from predecessor organisations.

Our 2023/4 (Year 1) programme has distributed £16k to 12 projects, introducing hockey to 2.3k new participants. These are mainly juniors from state schools, but include people with disabilities, and from the LGBT community. 58% are from black and minority ethnic backgrounds.

We are repeating the programme for at least two more years.

2 Game Management System (GMS)

London continues to assist England Hockey seeking improvements to GMS, including longer-term strategy.

David Lloyd-Williams
Vice-Chair, London Hockey
