The PPG DELFLEET® Evolution system delivers exceptional fleet coatings technology

It has become the finish system of choice for commercial vehicle manufacturers and fleet maintenance operators who want the ultimate in performance and durability. Incorporating proven technology, total color solutions and best-in-class service, this premium, painter-friendly system delivers the color, gloss and durability demanded for harsh day-in, day-out work environments.

The pinnacle of performance

**A versatile, extremely durable
paint system**

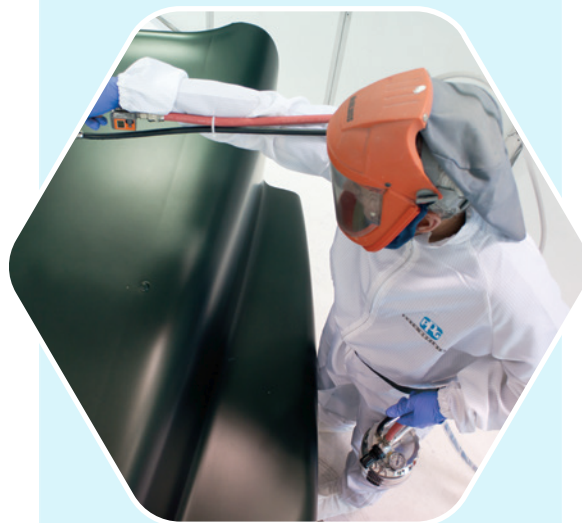

Proven
technology

As PPG's premium-performance, heavy-duty product line, the *Delfleet* Evolution system offers excellent variety throughout the color layers: single stage and basecoat with clearcoat. We also have a full lineup of reducers and undercoat options to meet your needs.

With its ability to be custom-configured to meet specific demands for durability, gloss, productivity and VOC compliance, the *Delfleet* Evolution system is the perfect choice for a wide spectrum of fleet repair and maintenance operations, and original equipment manufacturers.

OEM Approval

For the past 20 years, *Delfleet* Evolution has been used successfully in PACCAR®, Volvo®/Mack® International, Hino® and Freightliner®/Western Star® dealer locations across the U.S. and Canada to meet stringent color match and performance requirements. In 2003, PPG was approved globally as an authorized Commercial Vehicle Warranty Paint Supplier to Freightliner, LLC. As such, *Delfleet* Evolution coatings may be used for all warranty repair work regardless of the vehicle's manufacturing plant and for normal repair work as well.

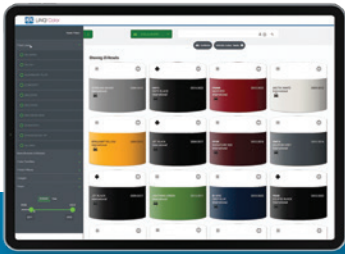

Good reasons to choose *Delfleet* Evolution coatings

- Exceptional durability
- Superb gloss
- Matched to OEM standards, variants and alternates
- Superior chemical and corrosion resistance
- Panel match capability
- Outstanding edge coverage
- Compliant options to meet regulatory requirements
- 3-, 5- and 7-year warranty options*

* For more information about specific products and warranties, please contact your PPG representative.

Total color solutions

Complete color capability. Pure and simple.

An arsenal of PPG color-matching tools and technology at your disposal

For a complete range of color resources, look no further than PPG and the comprehensive *Delfleet* Evolution color platform. With a database of more than 300,000 color formulations – updated continuously by PPG color experts around the world – our customers have access to a full spectrum of solid, metallic, pearl and specialty colors, as well as the ability to adjust gloss levels and create textured finishes.

Equally impressive, we back our color matching commitment with the most advanced color matching tools, technology, training and support. You'll find PPG's color retrieval and paint management options second to none, ranging from online formula retrieval to full-blown paint department management, featuring computerized mixing with comprehensive reporting and tracking capabilities. Plus we offer a custom color matching service and toll-free access to PPG's color library specialists. So whether you're a body builder, truck repair shop or large fleet maintenance center, you can depend on PPG to serve up the right color match when you need it.

Delfleet Evolution delivers total color solutions

- Extensive global color matching network
- Excellent match to OEM standards
- *Delfleet* Evolution color selector, with over 3,500 chips
- Fleet color selector for commonly used colors
- Market-specific color selectors, such as Fire and Emergency
- Visual tint guides
- PPG LINQ™ color lookup
- PAINTMANAGER® XI retrieval and LINQ color management software
- PPG DIGIMATCH™ color-reading spectrophotometer
- Call our Color Library Team toll-free at 800-647-6050, Monday - Friday, 8:00 am - 6:00 pm EST

We're behind you. All the way.

Exceptional support and training from commercial coatings experts

At PPG, we understand the quality of our products can only be enhanced by our ability to stand behind them with support and guidance. For this reason, *Delfleet* Evolution customers can depend upon best-in-class service from our Commercial Coatings group, a specialty staff of highly-trained professionals comprised of Commercial Territory Managers and OEM Sales Managers. They provide assistance in a variety of ways – from sharing knowledge on the latest paint technology and equipment to conducting in-depth, paint line documentation and analysis for maximizing performance, productivity and profitability. This support is further enhanced at the local level by PPG's extensive North American network of commercial coatings distributors.

To keep paint operation personnel up to date on the latest products, technologies, equipment and coating application methodologies, PPG offers an extensive training curriculum, with courses available throughout the year at PPG training centers across North America. Customers also can access a wealth of information by calling our dedicated help line and technical support team, contacting one of our local commercial jobber facilities, or by visiting ppg.com/refinish.

Best-in-class service

Delfleet Evolution customers have access to best-in-class guidance and support

- *Delfleet* Evolution technician certification course
- Spot repair and color tinting workshops
- Spray equipment for fleet use training
- Video and online training modules
- Facility design and layout services
- ADJUSTRITE® online body repair estimating
- Free listing on Truck Shop Locator website for PPG Certified Shops
- Customer service hotline: 800-647-6050
Monday - Friday, 8:00am - 6:00pm EST

The PPG Commercial Vehicle Paint Performance Warranty

The PPG Commercial Vehicle Paint Performance Warranty is a comprehensive program that benefits not only commercial vehicle owners, but original equipment manufacturers and commercial refinishers as well. We are so confident in *Delfleet* Evolution advanced technology and the people who apply it that PPG will warrant, in writing, the durability of any paintwork – either an original finish or repair – performed to PPG certification standards. The duration of the warranty varies from 3 to 7 years, depending on the PPG product system used. Work must be performed by a PPG Certified Commercial Technician – specialists who are trained in the latest application procedures and products.

With this warranty, your customers can be confident in knowing that their vehicle's finish will perform to optimal standards. They will get outstanding durability, appearance and protection – critical factors to today's commercial vehicles. When repairs are needed, they will also have the peace of mind that comes with choosing the right facility – a PPG Certified Commercial Vehicle Paint Finishing Center, where paint technicians attend certification training every two years on the latest products and repair techniques.

Restrictions and specific conditions may apply.

The power of PPG

World-class technology and innovative products

PPG is one of the world's preeminent suppliers of coatings solutions. We can strategically deliver innovative technologies to manufacturers and repair facilities that need quick, reliable and effective service to accelerate their businesses. We are one of the few global providers to offer expertise in every major coating technology – not just liquid, but also pretreatment, electrocoat and powder.

Dependable inventory management and delivery

Partnership with PPG includes a personalized inventory-management program that provides the products you need, delivered on time. We'll keep your coatings and sundries stocked in our local professional service centers and PPG authorized independent distributors based on the minimum levels you require. By utilizing our local distribution, you take the risk out of last-minute inventory management and reduce the amount of material stocked on your shop floor.

Full technical, application and sales support

PPG delivers world-class technical support. Our representatives can assist you with setting up a new coatings line or auditing an existing one to find ways to make your process faster and more efficient. We'll provide on-site application training for your line operators and teach your sales reps how to speak with your customers about the benefits of our products. We also offer additional support, including access to marketing material and online accounts for efficient tracking and bill payment.

One-stop shopping

We provide much more than innovative coatings. Your local professional service center and PPG authorized independent distributors can also deliver the supplies and sundries you need, including custom aerosols for touch ups, Graco® spray guns, PPG TOP GUN® caulks, wire cages, chip brushes, drop cloths and plastic, tape, booth cleaning products and more.

Looking to refresh the look of your facility? Leverage our full range of architectural and industrial coatings to refresh everything from office spaces and building exteriors to work areas and equipment.

WARNING: Certain products listed may contain chemicals known to the State of California to cause cancer and/or reproductive harm. For more information go to P65Warnings.ca.gov.
