

The state-of-the-art toners of the DELFLEET ONE® mixing system incorporate the latest aluminum and pearl pigments to cover the full color spectrum for fleet and transit vehicles, including basecoat, direct gloss and matte finishes. Yet to keep inventory requirements to a minimum, the compact system requires just 49 toners, four binders and four paint additives.

The *Delfleet One Color Selector* houses thousands of real-world and OEM color chips, including hundreds of variant colors. Chips are sprayed with actual paint, including metallics and pearls for “what you see is what you’ll spray” accuracy.

TONERS

CODE	DESCRIPTION	SIZE
F7000	White	01
