

Schedule of Benefits

for Professional Fees 2019

General Surgery

| ABDC | ABDOMINAL WALL AND PERITONEUM | | | | |
|------|---|--------------------------|-----------------------|---|--|
| CODE | DESCRIPTION | PRE-APPROVAL REQUIRED | PAYMENT INDICATORS | PAYMENT RULES | |
| 5 | Abdominal wall, secondary suture of | No | | | |
| 15 | Adhesions, division of by laparotomy or laparoscopy (I.P.) | No | Independent Procedure | | |
| 20 | Intra-abdominal injury with rupture of viscus, repair of (not including intraoperative injury) (I.P.) | No | Independent Procedure | | |
| 25 | Intra abdominal injury, multiple complicated with rupture of viscus (I.P.) | No | Independent Procedure | | |
| 30 | Laparotomy (I.P.) | No | Independent Procedure | | |
| 35 | Laparoscopy with or without biopsy (I.P.) | No | Independent Procedure | 1 Night Only | |
| 45 | Omentopexy | No | | | |
| 50 | Paracentesis abdominis | No | | | |
| 60 | Pelvic abscess, drainage of | No | | | |
| 80 | Peritoneum, drainage of (I.P.) | No | Independent Procedure | | |
| 90 | Laparotomy, intra-abdominal sepsis (I.P.) | No | Independent Procedure | | |
| 5835 | Peritoneal, venous shunt for ascites | No | | Possible co-payment please check Table of Cover | |

| ADRE | ADRENAL GLANDS | | | | |
|------|--|--------------------------|-----------------------|---------------|--|
| CODE | DESCRIPTION | PRE-APPROVAL REQUIRED | PAYMENT INDICATORS | PAYMENT RULES | |
| 95 | Adrenalectomy, unilateral (I.P.) | No | Independent Procedure | | |
| 101 | Adrenalectomy for phaeochromocytoma | No | | | |
| 102 | Laparoscopy, surgical with adrenalectomy, partial or complete or exploration of adrenal gland with or without biopsy, transabdominal, lumbar or dorsal | No | | | |
| 106 | Neuroblastoma, tru-cut biopsy | No | Diagnostic | | |
| 107 | Neuroblastoma, resection | No | | | |

| APPE | APPENDIX | | | | |
|------|--|--------------------------|-----------------------|---------------|--|
| CODE | DESCRIPTION | PRE-APPROVAL REQUIRED | PAYMENT INDICATORS | PAYMENT RULES | |
| 110 | Appendicectomy (with or without complications) (I.P.) | No | Independent Procedure | | |
| 111 | Appendicectomy, laparoscopic approach (with or without complications) (I.P.) | No | Independent Procedure | | |

| BILIA | BILIARY SYSTEM | | | | |
|--------|--|--------------------------|-----------------------|---------------|--|
| CODE | DESCRIPTION | PRE-APPROVAL REQUIRED | PAYMENT INDICATORS | PAYMENT RULES | |
| 115 | Cholecystojejunostomy | No | | | |
| 116 | Choledochojejunostomy (Roux – En – Y) | No | | | |
| 117 | Choledochoduodenostomy | No | | | |
| 118 | Surgical repair of post-operative biliary stricture | No | | | |
| 129 | Hepaticojejunostomy | No | | | |
| 132 | Cholecystectomy with exploration of common bile duct | No | | | |
| 135 | Cholecystectomy including per operative cholangiogram | No | | | |
| 136 | Percutaneous removal of gallstones from the bile ducts | No | | | |
| 140 | Cholecystostomy with exploration, drainage or removal of calculus | No | | | |
| 145 | Hepaticoduodenostomy | No | | | |
| 150 | Trans-duodenal sphincteroplasty with or without transduodenal extraction of calculus | No | | | |
| 151 | Transhepatic insertion of biliary endoprosthesis or catheter for biliary drainage | No | | | |
| 156 | Revision and/ or reinsertion of transhepatic stent (I.P.) | No | Independent Procedure | | |
| 157 | Change of percutaneous tube or drainage catheter, includes radiological guidance | No | Side Room, Sedation | | |
| 612 | Portoenterostomy (e.g. Kasai procedure) | No | | | |
| 456002 | Day case laparoscopic cholecystectomy including pre-operative cholangiogram | No | | Day Case | |
| 456003 | In-patient laparoscopic cholecystectomy including pre-operative cholangiogram | No | | 1 Night Only | |

| BREA | BREAST | | | | | |
|------|---|--------------------------|---|---------------|--|--|
| CODE | DESCRIPTION | PRE-APPROVAL REQUIRED | PAYMENT INDICATORS | PAYMENT RULES | | |
| 1190 | Abscess, incision and drainage of | No | Side Room | | | |
| 1195 | Percutaneous core needle biopsy of breast with or without ultrasound guidance (for fine needle biopsy use procedure code 1191) (I.P.) | No | Independent Procedure, Diagnostic, Side Room | | | |
| 1198 | Re-excision of margins arising from previous breast surgery (I.P.) | No | Independent Procedure, Day Care | | | |
| 1200 | Cysts or tumours, excision of, or lumpectomy, segmental resection, quadrant mastectomy or partial mastectomy | No | Day Care | | | |
| 1205 | Duct papilloma, excision of | No | Day Care | | | |
| 1206 | Mastectomy, partial, guided excision, with axillary sampling or removal of sentinel node(s) and immediate deep rotation flap reconstruction, with or without prosthetic implant | No | | 1 Night Only | | |
| 1207 | Skin sparing mastectomy with free skin and/ or muscle flap with microvascular anastomosis (I.P.) | No | Independent Procedure | | | |

| BREA | REAST | | | | | |
|------|---|--------------------------|-------------------------|---|--|--|
| CODE | DESCRIPTION | PRE-APPROVAL REQUIRED | PAYMENT INDICATORS | PAYMENT RULES | | |
| 1208 | Open periprosthetic capsulotomy breast (I.P.) | No | Independent Procedure | | | |
| 1209 | Periprosthetic capsulotomy breast (I.P.) | No | Independent Procedure | | | |
| 1210 | Gynaecomastia (excision for), unilateral | Yes | Day Care | Benefit for excision of gynaecomastia in accordance with procedure codes 1210 and 1211 is subject to pre-certification Gynaecomastia is defined as benign glandular breast enlargement due to ductal proliferation, stromal proliferation or both. The diagnosis must be based on both physical examination that confirms that the breast enlargement is true gynaecomastia and not pseudogynaecomastia, and laboratory, and other appropriate investigations as required should have been performed to identify any underlying reversible causes. Clinical Indications for procedure codes 1210, 1211 must be satisfied in full, included on the claim form for payment and are as follows: (a) Post-pubertal (b) BMI < 25 (c) Unilateral or bilateral gynaecomastia grade III or IV (Grade III gynaecomastia being moderate breast enlargement exceeding the areola boundaries with edges that are distinct from the chest with skin redundancy. Grade IV being gynaecomastia being marked breast enlargement with skin redundancy and feminisation of the breast) (d) Gynaecomastia that has been present for at least 1 year and has persisted despite treatment for at least 4 months for the underlying pathological cause (e) > / = 6 months pain or discomfort, directly attributable to breast hypertrophy, that is unresolved despite the continuous use for at least 4 weeks of prescription analgesia or non-steroidal anti-inflammatory drugs and significantly impacts on activities of daily living | | |
| 1211 | Gynaecomastia (excision for), bilateral | Yes | | Benefit for excision of gynaecomastia in accordance with procedure codes 1210 and 1211 is subject to pre-certification Gynaecomastia is defined as benign glandular breast enlargement due to ductal proliferation, stromal proliferation or both. The diagnosis must be based on both physical examination that confirms that the breast enlargement is true gynaecomastia and not pseudogynaecomastia, and laboratory, and other appropriate investigations as required should have been performed to identify any underlying reversible causes. Clinical Indications for procedure codes 1210, 1211 must be satisfied in full, included on the claim form for payment and are as follows: (a) Post-pubertal (b) BMI < 25 (c) Unilateral or bilateral gynaecomastia grade III or IV (Grade III gynaecomastia being moderate breast enlargement exceeding the areala boundaries with edges that are distinct from the chest with skin redundancy. Grade IV being gynaecomastia being marked breast enlargement with skin redundancy and feminisation of the breast) (d) Gynaecomastia that has been present for at least 1 year and has persisted despite treatment for at least 4 months for the underlying pathological cause (e) > / = 6 months pain or discomfort, directly attributable to breast hypertrophy, that is unresolved despite the continuous use for at least 4 weeks of prescription analgesia or non-steroidal anti-inflammatory drugs and significantly impacts on activities of daily living | | |
| 1212 | Mastectomy, complete, with or without removal of sentinel node(s) and with or without immediate insertion of tissue expander, includes subsequent expansions (I.P.) | No | Independent Procedure | | | |
| 1213 | Mastectomy, partial, with or without guidance with axillary clearance, or removal of sentinel node(s) | No | | 1 Night Only | | |
| 1214 | Mastectomy, partial, guided excision, for ductal carcinoma insitu | No | | 1 Night Only | | |
| 1216 | Mastectomy radical/ modified radical, with axillary clearance | No | | | | |
| 1218 | Mammographic wire guided excision breast biopsy | No | Diagnostic, Day Care | | | |
| 1219 | Mastectomy and axillary clearance, immediate breast reconstruction with latissimus dorsi pedicle flap, with or without prosthetic implant or expanding prosthesis | No | | | | |

| BREA | BREAST | | | | | |
|--------|--|--------------------------|-----------------------|---|--|--|
| CODE | DESCRIPTION | PRE-APPROVAL REQUIRED | PAYMENT INDICATORS | PAYMENT RULES | | |
| 1221 | Mastectomy and axillary clearance, immediate breast reconstruction with extended latissimus dorsi pedicle flap | No | | | | |
| 1222 | Mastectomy, complete with or without removal of sentinel node(s) with immediate insertion of tissue expander, includes subsequent expansions | No | | | | |
| 1223 | Mastectomy, partial, guided excision, with axillary sampling or removal of sentinel node(s), with immediate deep rotation flap reconstruction, with prosthetic implant | No | | | | |
| 193001 | Prophylactic unilateral mastectomy, without insertion of tissue expander | Yes | | | | |
| 193002 | Prophylactic unilateral mastectomy, complete with immediate insertion of tissue expander and subsequent expansions | Yes | | | | |
| 193003 | Prophylactic unilateral mastectomy, immediate breast reconstruction with latissimus dorsi pedicle flap, +/- prosthetic implant or expanding prosthesis | Yes | | | | |
| 193004 | Prophylactic unilateral mastectomy, immediate breast reconstruction with extended latissimus dorsi pedicle flap | Yes | | | | |
| 193005 | Prophylactic bilateral mastectomy, complete, without immediate insertion of tissue expander | Yes | | | | |
| 193006 | Prophylactic bilateral mastectomy, complete, with immediate insertion of tissue expander, includes subsequent expansions | Yes | | | | |
| 193007 | Prophylactic bilateral mastectomy, immediate breast reconstruction with latissimus dorsi pedicle flap, +/- prosthetic implant or expanding prosthesis | Yes | | | | |
| 193008 | Prophylactic bilateral mastectomy, immediate breast reconstruction with extended latissimus dorsi pedicle flap | Yes | | | | |
| 441196 | Skin sparing mastectomy (I.P.) | No | Independent Procedure | | | |
| 1212R | Mastectomy, risk reducing prophylactic, complete, with or without immediate insertion of tissue expander, includes subsequent expansions (I.P.) | Yes | Independent Procedure | Cover must be requested in advance and only by way of the standard template available from Irish Life Health | | |

|------|--|--------------------------|--------------------|---------------|--|
| CODE | DESCRIPTION | PRE-APPROVAL REQUIRED | PAYMENT INDICATORS | PAYMENT RULES | |
| 155 | Antrectomy and drainage | No | | | |
| 165 | Duodenal diverticula, excision of | No | | | |
| 174 | Wedge gastric excision for ulcer or tumour of stomach | No | | | |
| 175 | Gastrectomy, total or revision with anastomosis, pouch formation/ reconstruction/ Roux-en-Y reconstruction | No | | | |
| 180 | Gastrectomy, partial with anastomosis, pouch formation/ reconstruction/Roux-en-Y reconstruction (Not Claimable for Morbid Obesity) | No | | | |

| GAST | ASTRIC STATE OF THE PROPERTY O | | | | |
|------|--|--------------------------|--|---|--|
| CODE | DESCRIPTION | PRE-APPROVAL REQUIRED | PAYMENT INDICATORS | PAYMENT RULES | |
| 190 | Gastroenterostomy | No | | | |
| 191 | General anaesthesia for gastroscopy procedures (codes 192, 194, 198 or 206) and colonoscopy procedures (codes 450, 455, 456, 457, 458, 459, 530, 535 or 536) in children under 16 years of age | No | | | |
| 192 | Capsule endoscopy | No | Diagnostic, Side Room, Monitored Anaesthesia Care | Clinical indications for procedure code 192 are as follows: one of which must be included on claim form for payment: (a) For evaluation of loco-regional carcinoid tumours of the small bowel in persons with carcinoid syndrome (b) For initial diagnosis in persons with suspected Crohn's disease (abdominal pain or diarrhoea plus one or more signs of inflammation (fever, elevated white blood cell count, elevated erythrocyte sedimentation rate, or bleeding) without evidence of disease on conventional diagnostic tests, including small-bowel follow-through or abdominal CT scan/ CT enterography and upper and lower endoscopy (c) For investigation of patients with objective evidence of recurrent, obscure gastro intestinal bleeding (e.g. iron deficiency anaemia and positive faecal occult blood test, or visible bleeding) who have had upper and lower gastrointestinal endoscopies within the last 12 months that have failed to identify a bleeding source (d) For surveillance of small intestinal tumours in persons with Lynch syndrome, Peutz-Jeghers syndrome and other polyposis syndromes affecting the small bowel | |
| 194 | Upper gastrointestinal endoscopy with or without biopsies (includes Jejunal biopsy), with or without polypectomy | No | Diagnostic, Side Room, Monitored Anaesthesia Care | Clinical indications for an initial upper G.I. endoscopy (excludes repeat procedures within 12 months, for which there are other specific clinical indications), one of which must be included on claim form for payment: (a) Upper abdominal symptoms that persist in patients that have been tested and received treatment for Helicobacter pylori and/ or been treated with a trial of PPI's for 6 weeks (b) Upper abdominal symptoms associated with other symptoms or signs suggesting serious organic disease (i.e. anorexia and weight loss) or in patients > 45 years old (c) Dysphagia or odynophagia (d) Oesophageal reflux symptoms that are persistent or recurrent despite appropriate treatment (e) Persistent vomiting of unknown cause (f) Biopsy for suspected coeliac disease (g) Other diseases in which the presence of upper GI pathologic conditions might modify other planned management (h) Familial adenomatous polyposis syndromes (ii) For confirmation and specific histologic diagnosis of radiological demonstrated lesions – suspected neoplastic lesion, gastric ulcer oseophageal ulcer, upper tract stricture or obstruction (j) Patients with active/ recent GI bleeding (k) Iron deficiency anaemia or chronic blood loss (l) Patients with suspected portal hypertension to document or treat oesophageal varices (m) To assess acute injury after caustic ingestion (n) Treatment of bleeding lesions such as ulcers, tumours, voscular abnormalities (e.g. electro-coagulation, heater probe, loser photocoagulation, or injection therapy) (o) Banding or sclerotherapy of oesophageal varices (p) Removal of foreign body (q) Dilatation of stenoic lesions (r) Further investigation of suspected achalasia (s) Palliative treatment of stenosing neoplasms Clinical Indications for a repeat upper G.I. endoscopy – no consultant or hospital benefits are payable for a repeat upper G.I. endoscopy within a 12 month period except for the following clinical indications: (1) Histological diagnosis of gastric or oesophageal ulcer (2) Coeliac disease | |

| GAST | GASTRIC CONTROL OF THE CONTROL OF T | | | | |
|------|--|--------------------------|---------------------------------|---|--|
| CODE | DESCRIPTION | PRE-APPROVAL REQUIRED | PAYMENT INDICATORS | PAYMENT RULES | |
| 198 | Upper gastrointestinal endoscopy including oesophagus, stomach and either the duodenum and/ or jejunum as appropriate, with endoscopic ultrasound examination | No | Diagnostic, Side Room, Sedation | Procedure code 198 is not payable in conjunction with procedure codes 194, 201, 202 or 271 Clinical indications for procedure code 198 are as follows: must be included on claim form for payment (a) Oesophageal cancer: pre-operative staging and assessment of the resectability in operable patients without distant metastases, especially when stage dependent treatment protocols are applied (b) Gastric carcinoma: pre-operative staging of gastric cancer in patients without distant metastases if the local stage has an impact on therapy (local resection, neoadjuvant chemotherapy) (c) Gastric (i) Gastrointestinal sub mucosal tumours to differentiate from extra luminal compression and to plan therapy (resection or follow-up) (ii) Gastric: For diagnosis of gastric malt lymphoma (d) Biliary tumours: pre-operative staging and distal bile duct tumours (e) Benign conditions of the biliary tract; microlithiasis associated with acute pancreatitis/ post-cholecystectomy patients presenting with suspected biliary colic and have normal abdominal ultrasound and normal liver function tests (g) Pancreatic tumours: staging (h) Neuroendocrine tumours: locating neuroendocrine tumours, including insulinomas and gastrinomas | |
| 200 | Gastrostomy | No | | | |
| 201 | Insertion of percutaneous endoscopic gastrostomy (PEG) tube | No | | | |

| GAST | GASTRIC CONTROL | | | | |
|------|--|--------------------------|-----------------------|--|--|
| CODE | DESCRIPTION | PRE-APPROVAL REQUIRED | PAYMENT INDICATORS | PAYMENT RULES | |
| 202 | Upper gastrointestinal endoscopy with endoscopic ultrasound exam including oesophagus, stomach and either the duodenum and/ or jejunum as appropriate with transendoscopic ultrasound-guided intramural or transmural fine needle aspiration/biopsy(s) of lymph nodes in oesophageal, gastric and lung cancer, biopsy of pancreatic lesion(s), mediastinal mass or submucosal lesion(s), with or without coeliac plexus neurolysis for pain arising from pancreatic cancer or chronic pancreatitis | No | Diagnostic, Side Room | Procedure code 202 is not payable in conjunction with procedure codes 194, 198, 201 or 271 Clinical indications for an initial upper G.I. endoscopy (excludes repeat procedures within 12 months, for which there are other specific clinical indications), one of which must be included on claim form for payment: (a) Upper abdominal symptoms that persist in patients that have been tested and received treatment for Helicobacter pylori and/ or been treated with a trial of PPIS for 6 weeks (b) Upper abdominal symptoms associated with other symptoms or signs suggesting serious organic disease (i.e. anorexia and weight loss) or in patients > 45 years old (c) Dysphagia or odynophagia (d) Despohageal reflux symptoms that are persistent or recurrent despite appropriate treatment (e) Persistent vomiting of unknown cause (f) Biopsy for suspected coeliac disease (g) Other diseases in which the presence of upper GI pathologic conditions might modify other planned management (h) Familial adenomatous polyposis syndromes (g) Other diseases in which the presence of upper GI pathologic conditions might modify other planned management (h) Familial adenomatous polyposis syndromes (g) Other diseases in which the presence of upper GI pathologic conditions might modify other planned management (h) Familial adenomatous polyposis syndromes (g) Other diseases in which the presence of upper GI pathologic conditions might modify other planned management (h) For confirmation and specific histologic diagnosis of radiological demonstrated lesions - suspected neoplastic lesion, gastric ulcer oesophageal ulcer, upper tract stricture or obstruction (g) Patients with suspected portal hypertension to document or treat oesophageal varices (h) For confirmation and specific histologic diagnosis of radiological diagnosis of radiologica | |
