

Dental & Oral Surgery

Ground Rules

1. General Dental Practitioner / Periodontist / Orthodontist

- > Benefit is only payable to general dental practitioners/ periodontists / orthodontists, at the part participating/ standard rate.
- > The range of procedures to be covered are as per the attached Schedule 1.
- > For dental practitioners/periodontists/orthodontists to be registered with Irish Life Health, they must
 - be a registered Dental practitioner
 - hold a current full registration with the Dental Council of Ireland
 - be on the current Register of Dentists or the appropriate specialist register
 - be qualified to practice as a primary medical care physician
 - hold a primary medical qualification or hold an equivalent recognised qualification from outside Ireland, and hold all necessary qualifications to act as a Dentist in the Republic of Ireland
- > The administration of general anaesthesia or sedation carried out in the private practice of a General Dental Practitioner / Periodontist / Orthodontist is not covered by Irish Life Health.
- > Where a general anaesthetic is required, it will be liable for cover when performed in a listed Irish Life Health fully participating hospital, under the supervision of a Consultant Anaesthesiologist who is fully participating with Irish Life Health and on the specialist register of the Irish Medical Council. These procedures will be regarded as and payable as day cases and are listed in Schedule 1.

2. Oral Surgeon

- > Oral surgeons have the option of participating with Irish Life Health for treatment of our members on either fully participating or part participating basis and will be paid on that basis
- > Oral surgeons must indicate for the entire year if they are fully or part participating.
- > Where an oral surgeon elects to be registered with Irish Life Health as fully participating, then the fee payable, as outlined in the Schedule of Benefits for Professional Fees, will be regarded as the total fee payable to the oral surgeon for the performance of the procedure(s).
- > The range of procedures to be covered are as per Schedule 1 and 2.
- > For oral surgeons to be registered with Irish Life Health, they must in addition to being a Dental Surgeon, have also completed an approved and accredited course and be on the Dental Specialist Register.
- > Where a general anaesthetic is required it will be liable for cover when performed in a listed Irish Life Health fully participating hospital, under the supervision of a consultant Anaesthesiologist who is fully participating with Irish Life Health and on the specialist register of the Irish Medical Council. These procedures will be regarded as and payable as day cases and are listed below.

- > Where sedation is given to an Irish Life Health member, this may only be administered in an Irish Life Health participating hospital, or in the private practice of an oral surgeon on the Register of Oral Surgeons as maintained by the Dental Council of Ireland.

3. Maxillofacial Surgeons
