

Consultant Private Room Fees And Surgeries

Ground Rules

1. Private Rooms Technical Benefit

Irish Life Health are delighted to offer a “Private Room Technical Fee” to fully participating Consultants for procedures carried out in their Private Rooms. This is to recognise where Consultants may have invested in additional equipment & facilities, and to provide an enhanced experience to their patients by avoiding admission into a hospital setting.

The Private Room Technical Fees listed in Schedule 1 are payable in conjunction with selected procedures as outlined in Schedule 2. Please note that all payment rules, as set out in respect of each procedure code in the Schedule of Benefits for Professional fees, will apply.

Private Room Technical Fee benefits are only payable where no hospital or other bills are involved/ received, and only where the Consultant has performed the procedure(s) in their own rooms/suite (based on the Consultant's decision regarding appropriateness and safety). Where the Consultant opts to undertake the procedure in the hospital, then the hospital billing and claim submission process remains in place. The Private Room Technical Fee benefit is to cover technical charges arising for patients being treated in the Consultant's rooms. Acceptance of these fees are full and final settlement of any technical charges arising for the procedure.

Procedures where the Private Rooms Technical Fee benefit may be claimed are subject to change based on input and feedback from Consultants. Please email consultantcontracts@irishlifehealth.ie with any queries and/or recommendations for review of these procedures.

How to Claim

The Private Room Technical Fee benefit may be claimed in addition to the professional fee of the relevant procedure code and will be paid at 100% (multiple procedure rule will not apply).

Consultants are required to submit their claim form, billing/invoicing both the “Private Rooms Technical Fee” code specific to their discipline (see Schedule 1) **and** the corresponding procedure code (see Schedule 2).

Please note there is Higher/Minor technical rate associated with certain procedures, as highlighted in Schedule 2.
