ANAESTHESIA

Code	Description	Pre-Approval Required	Payment Indicators	Payment Rules	Participating Consultant Surgeon/ Physician Rate	Standard Consultant Surgeon/ Physician Rate	Participating Consultant Anaesthesiologist Rate	Standard Consultant Anaesthesiologist Rate	Participating Radiologist Rate	Standard Radiologist Rate
5966	General anaesthetic for mould making in preparation for radiotherapy, in children under 16 years of age	No					€ 392	€ 184		
5967	General anaesthetic for simulator mapping for radiotherapy in children under 16 years of age, one or more sessions	No					€ 377	€ 186		
5968	General anaesthetic for radiotherapy treatment in children under 16 years of age, per session	No					€ 377	€ 90		

BRACHYTHERAPY - HDR

Code	Description	Pre-Approval Required	Payment Indicators	Payment Rules	Participating Consultant Surgeon/ Physician Rate	Standard Consultant Surgeon/ Physician Rate	Participating Consultant Anaesthesiologist Rate	Standard Consultant Anaesthesiologist Rate	Participating Radiologist Rate	Standard Radiologist Rate
5659	Brachytherapy - High dose radiation, intracavity cylinder insertion non operative; insertion of a single applicator without the need for operative placement, all inclusive benefit for applicator placement and plan generated for each treatment. All inclusive benefit for multiple treatment fractions. The benefit includes one follow-up outpatient consultation	No			€ 1,080	€ 495	€ 657	€ 322		
5661	Brachytherapy - High dose radiation, intracavity gynaecological device inserted in theatre. Insertion of more than one applicator (such as tandems and/or ovoids or ring for cervix, vagina, or uterine cavity brachytherapy). Generation of complex computerised plan with normal tissue dose determination, sagittal, coronal and transverse slices generated. All inclusive benefit for multiple treatment fractions. The benefit includes one follow-up outpatient consultation after the course of treatment	No			€ 2,026	€ 927	€ 425	€ 210		
5682	High dose radiation brachytherapy (HDR) gynaecological non-operative case. Benefit includes placement of treatment applicators, computerised planning, dosimetry and brachytherapy treatment sessions	No		The consultant benefit for this code is claimable for each subsequent session during the patient's stay.	€ 961	€ 454	€ 572	€ 284		
5683	High dose radiation brachytherapy (HDR) post hysterectomy. Benefit includes insertion of treatment applicators, computerised planning, dosimetry and brachytherapy treatment session	No	Day Care	The consultant benefit for this code is claimable for each subsequent session during the patient's stay.	€ 558	€ 263	€ 331	€ 164		
5684	High dose radiation brachytherapy (HDR) to prostate, benefit includes computerised planning, dosimetry, placement of treatment applicators for temporary implants and treatment sessions. The benefit includes one follow-up outpatient consultation after the course of treatment	No			€ 2,052	€ 969	€ 787	€ 391		
5686	High dose radiation brachytherapy (HDR) primary treatment for intact breast, benefit includes computerised planning, dosimetry, placement of treatment applicators and treatment sessions. The benefit includes one follow-up outpatient consultation after the course of treatment	No			€ 1,851	€ 876	€ 787	€ 391		
5687	High dose radiation brachytherapy (HDR) primary treatment post mastectomy, benefit includes computerised planning, dosimetry, placement of treatment applicators and initial treatment session	No	Day Care		€ 1,109	€ 525				

BRACHYTHERAPY - HDR

Code	Description	Pre-Approval Required	Payment Indicators	Payment Rules	Participating Consultant Surgeon/Physician Rate	Standard Consultant Surgeon/Physician Rate	Participating Consultant Anaesthesiologist Rate	Standard Consultant Anaesthesiologist Rate	Participating Radiologist Rate	Standard Radiologist Rate
5688	Subsequent brachytherapy (HDR) treatment session post mastectomy case	No	Day Care		€ 306	€ 144				
5689	High dose radiation brachytherapy interstitial (e.g. head and neck), benefit includes computerised planning, dosimetry, placement of treatment applicators and treatment sessions. The benefit includes one follow-up outpatient consultation after the course of treatment	No			€ 1,831	€ 865	€ 391	€ 196		
5696	High dose radiation brachytherapy (HDR), bronchus, benefit for placement of treatment applicators, computerised planning, dosimetry and initial treatment session	No	Day Care		€ 1,044	€ 485				
5697	Subsequent brachytherapy (HDR) treatment session (bronchus)	No	Day Care		€ 654	€ 304				
5698	High dose radiation (oesophagus), all inclusive benefit for placement of treatment applicators, computerised planning, dosimetry and initial treatment session	No	Day Care		€ 985	€ 458				
5701	Subsequent brachytherapy (HDR) oesophagus treatment session	No	Day Care		€ 584	€ 303				
5703	High dose radiation brachytherapy (HDR), primary treatment for intact breast, consultant radiologist present during the procedure for a localisation of tumour bed and positioning of catheter under ultrasound image guidance - radiologist benefit	No			€ 434	€ 206

5990	All inclusive benefit for stereotactic radiosurgery (linear accelerator) for metastases of more than 3 lesions treated in same therapy course, one or more sessions - Radiotherapists benefit	No		Code includes evaluation of all digitised data, target outline, radiation treatment planning and CT scan evaluation volumetric analysis, including one follow-up consultation.	€ 2,374	€ 846				
5991	All inclusive benefit for stereotactic radiosurgery (linear accelerator) for metastases of 1 to 3 lesions treated in same therapy course, one or more sessions - Radiotherapists benefit	No		Code includes evaluation of all digitised data, target outline, radiation treatment planning and CT scan evaluation volumetric analysis, including one follow-up consultation.	€ 1,836	€ 846				
5992	All inclusive benefit for stereotactic radiosurgery (linear accelerator) for arteriovenous malformations, acoustic neuromas and deep seated tumours one or more sessions, including evaluation of all digitised data, target outline, radiation treatment planning, CT scan evaluation volumetric analysis, stereotactic frame placement and removal including one follow-up consultation - Radiotherapists benefit	No			€ 1,945	€ 893				

STEREOTACTIC RADIOSURGERY

Code	Description	Pre-Approval Required	Payment Indicators	Payment Rules	Participating Consultant Surgeon/ Physician Rate	Standard Consultant Surgeon/ Physician Rate	Participating Consultant Anaesthesiologist Rate	Standard Consultant Anaesthesiologist Rate	Participating Radiologist Rate	Standard Radiologist Rate
5993	All inclusive benefit for stereotactic radiosurgery (linear accelerator) for metastases one or more sessions, including evaluation of all digitised data, target outline, radiation treatment planning, CT scan evaluation volumetric analysis, stereotactic frame placement and removal including one follow-up consultation - Neurosurgeon's benefit	No			€ 922	€ 422				
5994	All inclusive benefit for stereotactic radiosurgery (linear accelerator) for arteriovenous malformations, acoustic neuromas and deep seated tumours one or more sessions, including evaluation of all digitised data, target outline, radiation treatment planning, CT scan evaluation volumetric analysis, stereotactic frame placement and removal including one follow-up consultation - Neurosurgeon's benefit	No			€ 1,945	€ 893				
775617	All inclusive benefit for stereotactic body radiation therapy for patients with low or intermediate risk prostate cancer, per course of 5 fractions, including image guidance	No			€ 2,121	€ 927				
777374	All inclusive benefit for stereotactic ablative body radiotherapy (SABR) for non-small cell lung cancer patients - radical treatment	No		Includes using a 4D scan with stereotactic treatment and the whole radical dose is delivered through 3-5 fractions.	€ 1,946	€ 750				
777376	All inclusive benefit for stereotactic ablative body radiotherapy (SABR) for oligometastases - for 1 to 2 lesions treated in same therapy course	No		Applicable when there are 5 or less lesions in 3 or less different organs with Karnofsky Performance Status of > 70. Includes 4D planning and treatment imaging if necessary.	€ 2,008	€ 750				
777377	All inclusive benefit for stereotactic ablative body radiotherapy (SABR) for oligometastases - for 3 - 5 lesions treated in the same therapy course	No		Applicable when there are 5 or less lesions in 3 or less different organs with Karnofsky Performance Status of > 70. Includes 4D planning and treatment imaging if necessary.	€ 2,374	€ 750				
777378	All inclusive benefit for stereotactic ablative body radiotherapy (SABR) for primary cancers of lung, kidney, pancreas, liver or prostate	No		Includes 4D planning and treatment imaging if necessary.	€ 2,008	€ 750				

THORACIC AND ABDOMEN

Code	Description	Pre-Approval Required	Payment Indicators	Payment Rules	Participating Consultant Surgeon/ Physician Rate	Standard Consultant Surgeon/ Physician Rate	Participating Consultant Anaesthesiologist Rate	Standard Consultant Anaesthesiologist Rate	Participating Radiologist Rate	Standard Radiologist Rate
770390	Radical treatment of thoracic or upper adnominal tumours where 4D analysis of motion is performed	No			€ 513	€ 241
